

ECODOT

Description

ECODOT is a comprehensive **veterinary nutritional and digestive support formulation** designed to enhance gut health, metabolic efficiency, and overall productivity in animals. It combines **probiotics, prebiotics, enzymes, essential minerals, amino acids, vitamins, herbal actives, and appetite-supporting agents** to address digestive imbalance, poor feed utilisation, reduced appetite, and stress-related performance loss.

The formulation is developed to support **healthy rumen and intestinal function**, promote optimal nutrient absorption, improve feed conversion, and assist animals during periods of dietary change, illness recovery, or productivity stress.

Specifications

- **Product Name:** ECODOT
- **Category:** Veterinary Feed Supplement / Nutritional Additive
- **Product Form:** Oral supplement
- **Formulation Type:** Multi-component probiotic, enzyme, mineral, vitamin, amino acid, and herbal blend
- **Usage Area:** Digestive health, appetite stimulation, metabolic support
- **Target Species:** Veterinary use only
- **Administration Route:** As directed by a veterinarian or animal nutritionist

Formulation Details

- Saccharomyces cerevisiae – 25 × 10 CFU
- Lactobacillus sporogenes – 25 × 10 CFU
- Fructo oligosaccharide – 150 mg
- Biotin – 5 mg
- DL-Methionine – 2 gm
- Zinc Sulphate – 100 mg
- Cobalt Sulphate – 20 mg
- Copper Sulphate – 50 mg
- Enzyme Complex – 206 mg
 - Cellulase
 - Xylanase

- Pectinase
- Amylase
- Lipase
- Bovi zyme – 100 mg
- Nux vomica – 500 mg
- Cannabis indica – 250 mg
- Sodium Bicarbonate – 150 mg
- Antimony Potassium Tartrate – 250 mg
- Choline Chloride – 300 mg
- Propionibacterium freudenreichii – 100 mg
- Cyproheptadine – 6 mg

Usage

- Supports healthy digestion and gut microflora balance
- Improves feed intake and nutrient utilisation
- Helps manage digestive disturbances and appetite loss
- Supports metabolic functions and productivity
- Useful during stress, dietary transition, or recovery phases

Advantages

- Multi-strain probiotics for gut microbial stability
- Enzyme blend enhances breakdown of fibre, starch, fat, and protein
- Essential minerals support enzymatic and metabolic activity
- Amino acids and vitamins improve growth and performance
- Herbal components assist appetite and digestive tone
- Suitable for routine supplementation under veterinary guidance

Disadvantages / Limitations

- Not intended as a sole nutritional source
- Overuse may lead to digestive imbalance
- Should not replace therapeutic treatment where medication is required

Precautions

- Use strictly as per veterinary recommendation
- Avoid concurrent use with incompatible supplements unless advised
- Do not exceed recommended dosage
- Keep out of reach of children

Handling & Storage

- Store in a cool, dry place
- Protect from direct sunlight and moisture
- Keep container tightly closed after use

Sterilisation / Hygiene

- No sterilisation required
- Ensure clean measuring and administration practices

Human Application

- Not intended for human consumption

Veterinary Application

- Used in animals to support digestive efficiency, appetite stimulation, metabolic health, and overall productivity
- Suitable for incorporation into veterinary nutritional management programmes

? FAQs

Q1. What is the primary purpose of ECODOT?

ECODOT is formulated to support digestive health, improve feed utilisation, and enhance overall metabolic performance in animals.

Q2. Can ECODOT be used during stress or illness recovery?

Yes, it is commonly used to support animals during stress, dietary changes, or recovery periods under veterinary advice.

Q3. Does ECODOT contain probiotics and enzymes?

Yes, it includes multiple probiotic strains and a broad enzyme complex to support gut health and digestion.

Q4. Is ECODOT a medicine or a supplement?

ECODOT is a veterinary feed supplement and not a medicinal product.

Q5. Should ECODOT be used daily?

Daily or periodic use should be decided by a veterinarian based on the animal's condition and nutritional needs.
