

# EMPTY POUCH BAG

## DESCRIPTION

An Empty Pouch Bag is a compact, lightweight, and durable storage accessory designed for organising small items in a clean and professional manner. Made from strong textile materials with a secure zipper closure, it is suitable for human, veterinary, office, industrial, and daily-use applications. Its minimal design ensures functionality, portability, and long-term usability.

## SPECIFICATION

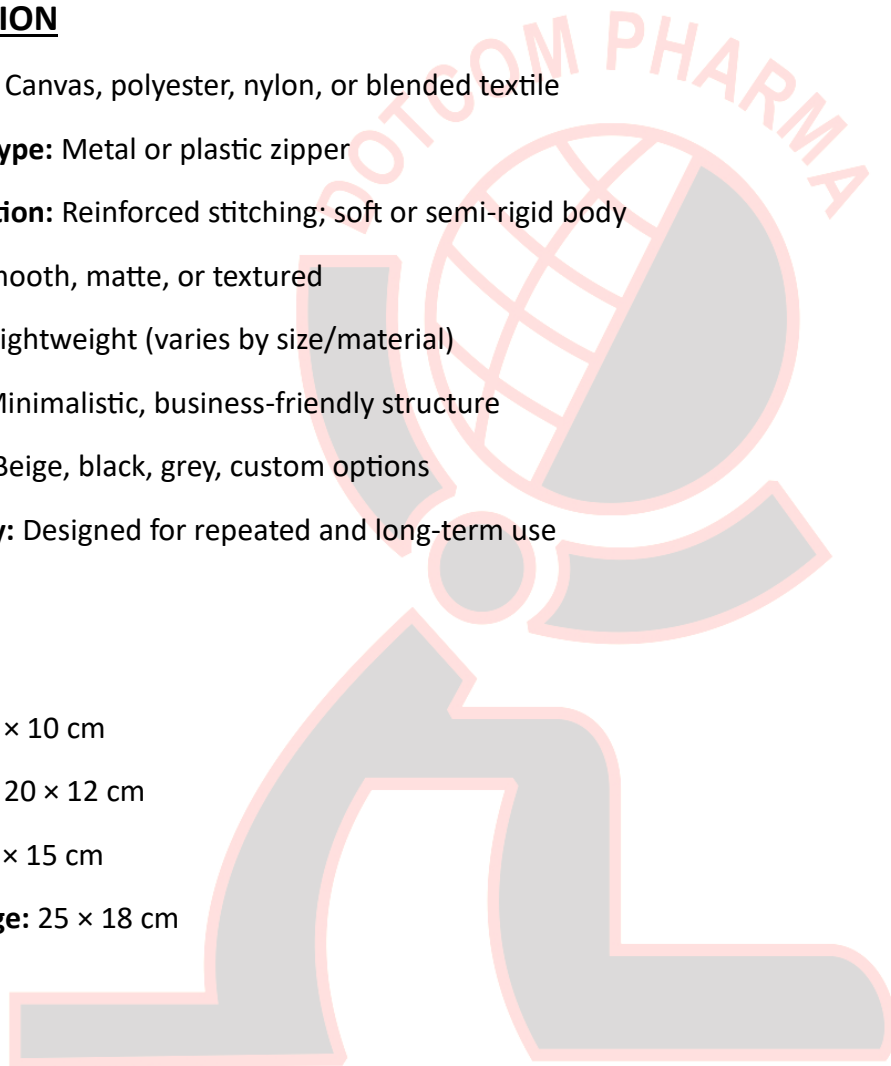

- **Material:** Canvas, polyester, nylon, or blended textile
- **Closure Type:** Metal or plastic zipper
- **Construction:** Reinforced stitching; soft or semi-rigid body
- **Finish:** Smooth, matte, or textured
- **Weight:** Lightweight (varies by size/material)
- **Design:** Minimalistic, business-friendly structure
- **Colours:** Beige, black, grey, custom options
- **Durability:** Designed for repeated and long-term use

## SIZES

- Pet-care supplies

## ★ ADVANTAGES

- Lightweight & portable
- Durable and long-lasting materials
- Multi-purpose use
- Professional, clean appearance
- Protects items from dust and exposure
- Washable & reusable
- Multiple sizes and colours available

## ⚠ DISADVANTAGES

- Limited capacity for larger items
- Not shockproof
- Fabric may absorb stains
- Shape can deform if overloaded
- Not fully waterproof unless coated

## 🚫 PRECAUTIONS

- Avoid storing uncovered sharp tools
- Do not expose to fire or extreme heat
- Do not overload
- Keep away from harsh chemicals
- Clean gently to maintain fabric integrity

## 📦 HANDLING DETAILS

- Operate zipper gently to avoid damage
- Store in cool, dry conditions
- Avoid pulling or stretching fabric excessively
- Keep away from moisture to prevent mould

## **STERILISATION DETAILS**

*Note: The pouch is **non-sterilisable**.*

- Cannot be autoclaved
- Cannot be treated with harsh chemical sterilisers
- Surface can be disinfected with mild agents
- Air dry after cleaning

**HS Code: 4202** – Bags, cases, and similar containers.

### **HSN CODE (Harmonized System Nomenclature – India)**

**HSN Code: 4202.32** – With outer surface of textile materials.

## **FAQ (Frequently Asked Questions)**

### **1. What is an Empty Pouch Bag used for?**

It is used to organise and store small items including tools, accessories, medical materials, and daily-use essentials.

### **2. Is the pouch waterproof?**

Not fully. Only coated or nylon variants provide water resistance.

### **3. Can it store sharp tools?**

Yes, but sharp edges must be covered to avoid damaging the fabric.

### **4. How do I clean it?**

Wipe with mild disinfectant or handwash with soft detergent. Air dry only.

### **5. Is it suitable for veterinary use?**

Yes, it is widely used for storing veterinary tools, bandages, and field accessories.
