Vitamin-Enriched Veterinary Powder Supplement

Description:

This is a highly potent **vitamin-rich nutritional supplement** designed for livestock and aquatic animals. It supports optimal **growth, immunity, reproductive health, and disease resistance** in **cattle, poultry, and fish**. The formulation is enriched with **fat-soluble and water-soluble vitamins** along with **essential trace minerals**, making it suitable for daily nutritional support in both intensive and extensive farming systems.

Composition (Per Kg):

- **Vitamin A:** 10,000 I.U. (International Units)
- **Vitamin D3:** 5,000 I.U.
- **Vitamin E:** 10 mg
- **Vitamin C:** 10 mg
- **Vitamin H (Biotin):** 12 mcg
- **Selenium:** 10 mcg

Indications:

- Boosts immune system and disease resistance
- Enhances reproductive performance
- Improves feed efficiency and overall productivity
- Reduces stress during vaccination, transport, or weather changes
- Supports skin, coat, and skeletal health

Dosage:

- **Cattle:** 50–100 gm per animal per day
- **Poultry:** 1–2 gm per litre of drinking water or 1–2 kg per ton of feed
- **Fish:** 2–3 gm per kg of feed or as advised by aqua consultant

Route of Administration:

Oral – to be mixed with feed or water

Usage Guidelines:

- Ensure even mixing in feed or water for uniform intake
- Can be used during breeding, stress, illness, or nutritional deficiencies
- Suitable for routine supplementation

Advantages:

- Balanced blend of essential vitamins & trace minerals
- Boosts immunity and fertility
- Reduces oxidative stress and supports tissue repair
- Safe for daily use in cattle, poultry, and fish

Adverse Effects:

- No known adverse effects when used as directed
- Overuse may lead to hypervitaminosis in sensitive species

Schedule:

Not a scheduled drug – free from hormonal or antibiotic components

Precautions:

- Store in a cool, dry place
- Keep away from direct sunlight and moisture
- Close lid tightly after use

Withdrawal Period:

Nil – safe for continuous use without residue concerns

Storage:

Below 30°C in a moisture-free environment

Handling Instructions:

Use gloves or scoop for large-scale handling
Keep away from children's reach

 **HS Code:** 2309.90

 **HSN Code:** 2309.90.90

 **Special Instructions:**

- Use in consultation with veterinary nutritionist
- Ensure clean water/feed availability at all times

 **Frequently Asked Questions (FAQs)**

Q: Can I use this for all types of livestock?

A: Yes, it is formulated for cattle, poultry, and fish.

Q: Does it require a prescription?

A: No, it is a feed supplement and does not require a prescription.

Q: How often should I use it?

A: It can be used daily as part of the animal's regular nutritional plan.

Q: Is it safe to use during pregnancy or breeding cycles?

A: Yes, in fact, it supports reproductive health and immunity during such periods.

Q: Does it affect milk, meat, or egg quality?

A: No adverse effect; instead, it supports better quality production.
