

ELECTRO-DOT

Electrolyte and Vitamin Support Powder

Description:

This veterinary feed supplement is a powdered blend formulated to provide essential electrolytes and vitamins to support hydration, metabolic balance, and overall health in poultry. It contains a balanced combination of salts and vitamin C designed to replenish minerals lost during stress, heat, or illness, and to enhance recovery and productivity.

Specification:

- Sodium Citrate — 3 gm
- Sodium Bicarbonate — 1.5 gm
- Potassium Chloride — 5 gm
- Sodium Chloride — 3 gm
- Calcium Lactate — 2.5 gm
- Magnesium Sulphate — 4.5 gm
- Vitamin C (Ascorbic Acid) — 800 mg
- Dextrose Base — Quantity Sufficient (q.s.)

 Category:

Poultry

 Pack Size:

1 kg box, 5 kg bucket

Indications

Used to restore electrolyte balance and provide vitamin supplementation in poultry, especially during periods of dehydration, heat stress, or illness. Helps maintain optimal physiological function and supports immune response.

Dosage and Route of Administration:

Administer by mixing the recommended dose with drinking water as per veterinary instructions. Dosage should be adjusted according to the flock size and health condition.

Product Form:

Powdered feed supplement

Usage:

Supports hydration, electrolyte balance, and vitamin C supplementation in poultry to improve resilience against stress and promote recovery.

Advantages:

- Balanced electrolyte composition
- Supports metabolic and immune health
- Enhances recovery from stress and dehydration
- Easy to administer in drinking water

Adverse Effects:

Generally safe when used as directed. Overdosage may cause mild gastrointestinal disturbances. Discontinue use if adverse symptoms appear and consult a veterinarian.

Withdrawal Period:

No withdrawal period required as this is a feed supplement; always follow veterinary guidelines.

Schedule:

Non-scheduled veterinary feed supplement

Precautions:

Use under veterinary supervision. Store in a cool, dry place away from moisture and direct sunlight. Keep out of reach of children and unintended animals.

Storage and Handling:

Store between 15°C and 30°C in a sealed container to protect from moisture.

HS & HSN Codes:

 HS Code: 21069090

 HSN Code: 2106

Special Instructions:

Ensure thorough mixing in drinking water. Follow veterinarian's dosage instructions strictly. Monitor poultry for any unusual reactions.

Details of Human and Veterinary Application:

For veterinary use in poultry only. Not for human consumption. Observe hygiene and safety protocols during handling.

Frequently Asked Questions (FAQs):

What is the primary function of this feed supplement?

It replenishes essential electrolytes and provides vitamin C to support hydration and immune function in poultry.

Can this supplement be given to all poultry species?

Yes, it is formulated for general poultry use; consult a veterinarian for specific applications.

Is a withdrawal period necessary after using this product?

Typically, no withdrawal period is needed; adhere to veterinary advice.

How should this product be stored?

Store in a cool, dry place, sealed to prevent moisture contamination.

Are there any side effects?

Side effects are rare but may include mild digestive upset if overdosed. Discontinue use and consult a veterinarian if necessary.
