## Ayurvedic Veterinary Ointment

### Description

A professionally formulated **Ayurvedic topical ointment** designed for veterinary use. This preparation uses classical herbal actives known in **Ayurvedic medicine** to support **wound healing, anti-inflammatory action, skin repair, and microbial protection** in livestock and domestic animals. The product is **non-steroidal, herbal, and chemical-free**, ideal for long-term application in animals without systemic side effects.

### Composition

Each 50 gm contains:

- **Ayurvedic Herbs and Extracts** – Composition not disclosed
- **Ointment Base (Herbal/Vegetable Origin)** – q.s. to 50 gm

### Category

- Ayurvedic Veterinary Topical Ointment
- Skin Protectant / Healing Aid
- Anti-inflammatory & Antimicrobial
- Non-toxic and safe for food-producing animals

### Indications

Recommended for use in:

- Minor skin wounds, cuts, and abrasions
- Mild skin infections or irritations
- Cracked hooves or pads
- Post-dehorning care
- Inflammation and itching control
- Natural skin repair support in cattle, goats, sheep, dogs, and equines

## **Route of Administration**

- **Topical use only**
- For external veterinary application

## **Dosage & Method of Use**

- Clean the affected area with saline or water
- Apply a sufficient amount of ointment over the affected skin
- Use **1–2 times daily**, or as directed by a registered veterinary practitioner
- Continue use for several days for optimal effect

## **Benefits / Advantages**

- Fully Ayurvedic and free from synthetic chemicals
- Safe on sensitive skin areas and repeated use
- Can be used with other veterinary treatments
- Quick healing support with natural plant-derived actives
- Tube packaging ensures hygienic use and no contamination

## **Precautions**

- Avoid contact with eyes or mucous membranes
- Not for internal use
- Do not apply on large open wounds without vet consultation
- Store away from children

## **Storage Instructions**

- Store below 30°C in a dry place
- Protect from direct sunlight and excessive heat
- Keep tube tightly closed after use

## **Adverse Effects**

- None reported under recommended usage
- In rare cases, mild irritation may occur — discontinue if seen

## **Schedule**

- Ayurvedic Veterinary Product — **Not scheduled under Drugs & Cosmetics Act**
- Compliant with **AYUSH** and **veterinary herbal norms**

## **Handling and Disposal**

- Use clean hands or gloves while applying
- Dispose of empty tubes responsibly as per bio-medical waste regulations

## **HSN Code**

- **HSN:** 30039011 — Ayurvedic Medicaments for Veterinary Use

## **Frequently Asked Questions (FAQs)**

**Q1: Is this a steroid-based cream?**

**A:** No. This is a fully Ayurvedic herbal formulation without steroids.

**Q2: Can it be used for dairy cattle?**

**A:** Yes. It is safe and non-toxic, though always consult your vet before use in lactating animals.

**Q3: Does it have any side effects?**

**A:** No adverse effects have been reported. It's safe under regular use.

**Q4: Can this be used with antibiotics?**

**A:** Yes. This product is topical and herbal; it does not interfere with systemic antibiotics or dewormers.

**Q5: Is it suitable for dogs and small pets?**

**A:** Yes, it is gentle and can be used on small animals as advised by a vet.
