Ayurvedic Mineral & Herbal Veterinary Supplement

Description:

A traditional Ayurvedic formulation combining mineral bhasmas (incinerated mineral preparations) like Nag Bhasma (Lead), Yashad Bhasma (Zinc), and Bang Bhasma (Boron) with potent herbal ingredients such as Symplocos racemosa, Rasina flava, Tinospora cordifolia, Saraca asoca bark, and Acacia bark. This blend supports cattle's reproductive health, digestion, and overall vitality, following time-tested herbal medicine principles.

Specification:

- Nag Bhasma: 1.5 gm
- Yashad Bhasma: 1.5 gm
- Bang Bhasma: 1.5 gm
- Symplocos Racemosa: 20 gm
- Rasina Flava: 10 gm
- Soda Biboras: 20 gm
- Tinospora Cordifolia: 5.5 gm
- Saraca Asoca Bark: 15 gm
- Acacia Bark: 15 gm

Composition:

Balanced mix of Ayurvedic mineral bhasmas and botanicals formulated to enhance cattle's health and metabolic functions.

Excipients:

Pharmaceutical-grade filler or base to stabilize the formulation.

Indications:

- Supports reproductive system health
- Enhances digestion and nutrient assimilation
- Boosts immunity and general well-being in cattle

Dosage:

Administer orally as per veterinary prescription. Usually mixed with feed or water.

Route of Administration:

Oral.

Usage:

Recommended for improving vitality, reproductive performance, and digestion in cattle.

Advantages:

- Combines traditional Ayurvedic minerals and herbs for holistic benefits
- Supports multiple physiological systems
- Natural formulation with long-standing traditional use

Adverse Effects:

No known side effects when used appropriately. Monitor for any sensitivities.

Schedule:

Non-controlled veterinary supplement.

Precautions:

Store in a cool, dry place. Use under veterinary supervision, especially due to presence of mineral bhasmas.

Withdrawal Period:

Consult veterinarian based on other medications.

Storage:

Keep sealed, away from moisture and direct sunlight.

Handling:

Handle with care, especially mineral bhasmas which require careful dosing.

HS/HSN Code:

- HS Code: 3004.90 (Medicaments containing vitamins or other products)
- HSN Code: 3004

Special Instructions:

Use under guidance. Avoid overdose and contamination.

Human and Veterinary Application:

Strictly for veterinary use in cattle; **not for human consumption.**

Frequently Asked Questions (FAQs)

Q: What are bhasmas?

A: Ayurvedic mineral preparations processed through incineration, believed to have therapeutic properties.

Q: Is this safe for all cattle?

A: Generally yes, but use under veterinary supervision due to mineral content.

Q: Can it be used during pregnancy?

A: Consult your veterinarian before use in pregnant animals.

Q: Is this formulation natural?

A: Yes, it uses traditional Ayurvedic ingredients and minerals.
