## Calcium Energy Booster Veterinary Feed Supplement

### Description

This supplement is a **comprehensive calcium and energy booster**, specially formulated for **cattle** during periods of high metabolic demand, stress, or calcium deficiency. Ideal for use during early lactation, post-calving, or times of reduced appetite, it supports muscle function, energy metabolism, and overall vitality. Fortified with **herbal adaptogens** like Safed Musali and vital nutrients, it ensures optimal health and milk productivity.

### Specification

- **Form:** Liquid
- **Category:** Cattle
- **Pack Size:** 1 Litre
- **Colour:** Clear to light brown liquid
- **Application:** Oral use

### Composition (Per Litre)

- **Calcium Propionate** – 2000 mg
- **Glycerin** – 30 ml
- **Safed Musali (Chlorophytum borivilianum)** – 8000 mg
- **Niacinamide (Vitamin B3)** – 5000 mg
- **Calcium Lactate** – 5000 mg
- **BHA (Butylated Hydroxyanisole)** – 50 mg

### Route of Administration

- Orally via drinking water, drenching, or mixing with feed

## Indication

- **Calcium deficiency** during lactation or post-calving
- **Low energy levels** and fatigue
- **Weakness, low feed intake**, or stress
- Helps in **uterine muscle contraction** post-parturition
- Boosts **reproductive health and productivity**

## Dosage

- **Adult Cattle:** 50–100 ml per day
- Or as recommended by the veterinarian

## Product Form

- Liquid oral supplement

## Advantages

- Provides quick calcium replenishment
- Improves muscular function and energy balance
- Enhances milk yield in lactating animals
- Herbal support helps improve fertility and stamina
- Easy to administer and fast-acting

## Adverse Effects

- None reported under normal use
- Overdose may cause mild gastrointestinal upset

## Schedule

- OTC (Over-the-Counter) veterinary nutritional product

## Withdrawal Period

- **No withdrawal period** required for milk or meat

## **Storage**

- Store in a cool, dry, and dark place
- Do not freeze

## **Handling**

- Shake well before use
- Close the bottle cap tightly after each use

## **HS & HSN Codes**

- **HS Code:** 2309
- **HSN Code:** 23099090

## **Special Instructions**

- For **animal use only**
- Keep away from children
- Use under veterinary supervision for best results
- Do not exceed recommended dose

## **Frequently Asked Questions (FAQs)**

### **Q: What is the main use of this supplement?**

A: It helps replenish calcium and energy in cattle, especially during lactation or recovery.

### **Q: Can this be given post-calving?**

A: Yes! It supports uterine health and calcium levels post-parturition.

### **Q: Is it safe with other medications or supplements?**

A: Generally yes, but consult your veterinarian for concurrent use.

### **Q: Is a prescription required?**

A: No, it's an over-the-counter feed supplement.

### **Q: Any side effects?**

A: None under proper dosage; overuse may cause mild GI issues.
