

Shearing Clipping Scissor 12"

Description

The **Shearing Clipping Scissor 12"** is a robust, precision-crafted tool designed for manual clipping and trimming of animal hair and wool. Ideal for use in veterinary clinics, farms, and grooming centres, these scissors provide control and accuracy for detailed shearing tasks. Their long 12-inch blades make them suitable for efficient cutting over large areas.

Specifications

- Length: 12 inches (approx. 30 cm)
- Blade Type: Straight, sharp edges for smooth cutting
- Material: High-grade stainless steel blades and handles
- Handle: Ergonomically designed for comfortable grip and ease of use

Material

- Premium surgical-grade stainless steel ensuring durability, corrosion resistance, and sharpness

Category

- Veterinary Grooming Instruments / Clipping Scissors

Product Form

- Manual shearing scissor with fixed blades and ergonomic handles

Usage

- Designed for manual clipping and trimming of wool, fur, and hair in animals
- Commonly used for finishing touches after electric clipping or for detailed trimming
- Suitable for sheep, goats, cattle, and other livestock as well as pet grooming

✔ Advantages

- Precise cutting ability for detailed grooming work
- Durable stainless steel construction ensures long-lasting sharpness
- Ergonomic handles reduce hand fatigue during prolonged use
- Portable and easy to use without electricity

✘ Disadvantages

- Requires physical effort and skill for efficient use
- Not suitable for large-scale or rapid clipping compared to electric machines

⚠ Precautions

- Handle with care to avoid injury due to sharp blades
- Keep blades clean and dry to prevent rust and maintain sharpness
- Store in a protective case to avoid damage

📄 Handling & Sterilization Details

- Clean blades after each use with disinfectant wipes or solutions
- Dry thoroughly to prevent corrosion
- Sharpen blades regularly to maintain cutting efficiency

🌸 Veterinary Application

- Used extensively in animal grooming for trimming and shearing wool or hair
- Essential tool in small-scale or precision grooming tasks

👩 Human Application

- Not typically used in human grooming or medical procedures

📄 HS & HSN Codes

- **HS Code:** 8213.00
- **HSN Code:** 8213

? FAQs

Q: Can these scissors be used on all animal types?

A: Yes, suitable for a variety of animals, especially sheep, goats, and pets requiring detailed grooming.

Q: How do I maintain the scissors' sharpness?

A: Regular cleaning, drying, and professional sharpening keep blades sharp and effective.

Q: Are these scissors safe for beginners?

A: With proper handling and practice, beginners can use these scissors safely for manual clipping.

Q: What is the advantage over electric clippers?

A: Scissors allow for more precise control and detailed trimming in areas where electric clippers might be too rough.

Q: Can the scissors be sterilized?

A: Yes, they can be cleaned with disinfectants and sterilized following veterinary instrument protocols.
