

# MELO-P

## Paracetamol IP 1500 mg + Meloxicam USP 100 mg Veterinary Bolus

### Description:

This veterinary bolus combines Paracetamol, a widely used analgesic and antipyretic agent, with Meloxicam, a selective Non-Steroidal Anti-Inflammatory Drug (NSAID) from the oxicam class. The combination provides effective pain relief, reduces inflammation, and controls fever in large animals. It is especially useful for managing musculoskeletal disorders, post-surgical pain, and various inflammatory conditions in cattle, buffalo, sheep, and goats.

### Specification:

- Active Ingredients:
  - Paracetamol IP 1500 mg per bolus
  - Meloxicam USP 100 mg per bolus
- Appearance: White to off-white solid bolus
- Purity & Quality: Complies with Indian Pharmacopoeia (IP) and United States Pharmacopeia (USP) standards
- **Pack Size: 10 strips x 4 boluses per strip (40 boluses per pack)**

### Indications:

- Relief of pain and inflammation in veterinary patients
- Control of fever

### Dosage and Administration:

- Oral administration as prescribed by the veterinarian
- Typical dose: 1 bolus per 25-30 kg body weight once daily
- Follow veterinary guidance strictly

### Route of Administration:

Oral

## **Product Form:**

Veterinary Oral Bolus

10 strips x 4 boluses per strip (40 boluses per pack)

## **Usage & Advantages:**

- Combines analgesic and anti-inflammatory effects for effective symptom control
- Convenient bolus form for easy administration in large animals
- Improves animal welfare and supports recovery

## **Adverse Effects:**

- Potential gastrointestinal irritation with prolonged use
- Rare allergic reactions
- Monitor animals for adverse effects and consult veterinarian if needed

## **Withdrawal Period:**

- Meat: 7 days
- Milk: 3 days (subject to local veterinary guidelines)

## **Precautions:**

- Use only under veterinary supervision
- Avoid in animals with liver, kidney, or gastrointestinal disorders
- Not for animals allergic to NSAIDs or Paracetamol

## **Storage:**

- Store in a cool, dry, dark place
- Keep container tightly closed

## **Handling:**

- Avoid moisture contamination
- Use gloves if sensitive to components

### **HS/HSN Code:**

- HS Code: 3004.90
- HSN Code: 3004

### **Special Instructions:**

- Follow veterinary prescription strictly
- Do not exceed recommended dose
- Report any adverse reactions promptly

### **Veterinary & Human Application:**

- For veterinary use only
- Not for human consumption
- Suitable for cattle, buffalo, sheep, goats, and other large animals
