

# Examination Table for Pets

## DESCRIPTION

The **Examination Table for Pets (SS-304)** is a compact, durable, and hygienically designed veterinary table equipped with a **drawer, cabinet door, and 1-foot extendable section** for added workspace. As evident from your uploaded image, the table's construction features a **fully polished SS-304 frame** with a smooth, flat working surface — ideal for patient examination, minor treatments, and grooming. The **drawer and door storage** allow convenient access to instruments and accessories, while the **extension feature** offers flexibility for larger pets. Designed for both function and comfort, this model is a complete, finished, ready-to-use veterinary workstation.

## SPECIFICATION

- Product Name: Examination Table for Pets
- Size: 20" × 36"
- Height: 36"
- Material: Stainless Steel (SS-304 – Veterinary Grade)
- Extension: 1-foot additional slide-out platform
- Storage: One drawer and one enclosed cabinet door
- Finish: Fine polished (mirror/satin optional)
- Structure: Welded tubular frame with reinforced support base
- Top Surface: Flat, smooth SS sheet with rounded safety edges
- Handles: SS handles with smooth pull mechanism
- Base: Anti-slip rubber shoes for stable placement

## SIZES & VARIANTS

- **Standard Size:** 20" × 36" × 36" height + 1' extension
- **Optional Sizes:** 24" × 48", 24" × 60"
- **Variants:**
  - With drawer only
  - With drawer + door (this model)
  - With dual storage and extended platform
- **Finish Options:** Fine polished / matte satin / brushed

## TYPES & FEATURES

- SS-304 frame for strength, hygiene, and long service life
- Drawer and lower cabinet for organised storage
- 1-foot extension for large animal comfort
- Smooth working surface easy to disinfect
- Seamless welded joints with rounded corners for safety
- Rust-proof and suitable for indoor or semi-humid environments

## MATERIAL DETAILS

- **Material:** Stainless Steel SS-304 (AISI 304)
- **Finish:** Fine polished for easy cleaning and high hygiene
- **Frame:** TIG-welded tubular frame
- **Storage Components:** SS drawer and hinged door with soft-close mechanism
- **Top Surface:** Non-porous SS plate with rounded edge finish

## CATEGORY & PRODUCT FORM

- Category: Veterinary / Hospital Examination Equipment
- Product Form: Stationary veterinary examination table
- Functional Type: Fixed table with integrated storage and extension

## USAGE & APPLICATION

- Ideal for **veterinary hospitals, clinics, and grooming centres**
- Used for examination, dressing, and minor surgical procedures
- Provides hygienic workspace for animals of all sizes
- Extension supports larger pets like dogs or goats comfortably

## ADVANTAGES

- Compact and multi-functional design
- Integrated drawer and cabinet for easy storage
- Extension feature enhances workspace flexibility
- SS-304 construction ensures corrosion resistance

## **DISADVANTAGES**

- Fixed height (non-adjustable)
- Heavy due to full SS build
- Requires careful handling to prevent surface scratches

## **PRECAUTIONS**

- Clean after every examination or treatment session
- Avoid dragging to prevent base or floor damage
- Do not overload the extension beyond safe weight limit
- Use neutral cleaners only for polishing

## **HANDLING & CARE**

- Wipe with alcohol-based or neutral disinfectants
- Lubricate drawer channels occasionally for smooth sliding
- Check hinges and handles regularly
- Keep surfaces dry after cleaning

## **STERILISATION DETAILS**

- Clean using 70% alcohol-based hospital disinfectants
- Avoid steam autoclaving the complete frame
- Disinfect top surface before every procedure
- Maintain sterile storage for instruments in drawers

## **HUMAN & VETERINARY APPLICATIONS**

- **Veterinary Use:** Animal examination, dressing, grooming, and treatment
- **Human Equivalent:** Similar design used in OPD and minor surgical areas
- Ideal for both small animal clinics and pet hospitals

## **HS & HSN CODES**

- **HS Code:** 9403
- **HSN Code:** 94032010 — Stainless Steel Veterinary & Hospital Furniture

## **? FAQS (Frequently Asked Questions)**

### **Q1: Why is SS-304 used for veterinary examination tables?**

It offers excellent hygiene, rust resistance, and durability under frequent cleaning and disinfection.

### **Q2: What is the purpose of the 1-foot extension?**

The extension provides extra space for larger pets, ensuring comfort and convenience during examinations.

### **Q3: Can the drawer and door be customised?**

Yes, they can be made deeper, divided, or replaced with dual drawers as per user preference.

### **Q4: How should the table be cleaned and maintained?**

Clean with mild disinfectant after every use, wipe dry, and polish occasionally to maintain the fine finish.

### **Q5: Is this table suitable for heavy animals?**

Yes — the welded SS-304 frame can safely support medium to large pets without bending or instability.
