- **HSN Code:** 23099090

Special Instructions

- Ensure **fresh drinking water** is available at all times
- Do not exceed the recommended dose
- For **veterinary use only**

Frequently Asked Questions (FAQs)

Q: What is the main benefit of this supplement?

A: It helps **flush toxins, relieve gas**, and support better digestion in cattle.

Q: Is this a medicine?

A: No, it's a **natural feed supplement**, not a pharmaceutical drug.

Q: Can I give this with other medications?

A: Yes, but maintain a gap of 1–2 hours. Always consult a vet for combined use.

Q: How fast does it work?

A: Usually within 12–24 hours for digestive relief.

Q: Any precautions?

A: Avoid overdosing. Ensure hydration. Use under supervision if digestive issues persist.
