Veterinary Applications

- Used in veterinary clinics for regular grooming
- Helps prevent nail-related injuries in animals
- Reduces anxiety by enabling fast and painless trimming
- Common tool during wellness checkups and surgeries

Human Applications

- Not intended for human use

Designed specifically for dogs and other companion animals

Frequently Asked Questions (FAQs)

Q1. Is this nail cutter suitable for all dog breeds?

A: Yes, it is suitable for small to large breeds. However, extremely thick nails in giant breeds may need a heavy-duty cutter.

Q2. Does it come with a built-in filer?

A: Yes! A metal nail filer is built into the handle for convenient post-trim smoothing.

Q3. Can it be used in vet clinics as well as at home?

A: Absolutely — it's perfect for both professional and personal grooming use.

Q4. How do I clean the nail cutter?

A: Wipe the blades with alcohol or a disinfectant after every use. Do not immerse the handle in water.

Q5. Is it imported?

A: Yes, this product is imported and made from high-grade materials for long-lasting performance.
