

LUMPY- DOT

Veterinary Feed Supplement for Lumpy Skin Disease Support

Description:

LUMPY-DOT is a specially formulated herbal veterinary feed supplement designed to support the treatment and management of Lumpy Skin Disease (LSD) in cattle. The unique blend of potent herbs, vitamins, minerals, and nutrients enhances the immune system, reduces inflammation, promotes skin regeneration, and helps improve overall health during the course of the disease. This natural formulation aids in faster recovery and better productivity in affected cattle.

 **Category:** Cattle

 **Pack Size:** 1 litre

 **Indication:**

- Supportive therapy for Lumpy Skin Disease in cattle.
- Helps enhance immune function and antioxidant defense.
- Aids in reducing skin inflammation and promoting healing.
- Supports general well-being and productivity during illness.

 **Dosage & Route of Administration:**

- Oral administration.
- Dosage to be given as per veterinary advice; typically 30-50 ml per day depending on the severity and animal weight.

 **Precautions:**

- Use strictly under veterinary supervision.
- Keep out of reach of children.
- Avoid contamination of feed and water.
- Store in a cool, dry place away from direct sunlight.

 **Adverse Effects:**

- Generally safe when used as directed.
- Rare allergic reactions may occur; discontinue use if any adverse reaction is observed.

Withdrawal Period:

- Not applicable (herbal feed supplement).

Storage Instructions:

- Store at temperature between 15-30°C.
- Keep container tightly closed when not in use.
- Protect from moisture and direct sunlight.

 **HS Code:** 2309.90.90

 **HSN Code:** 2309

Advantages:

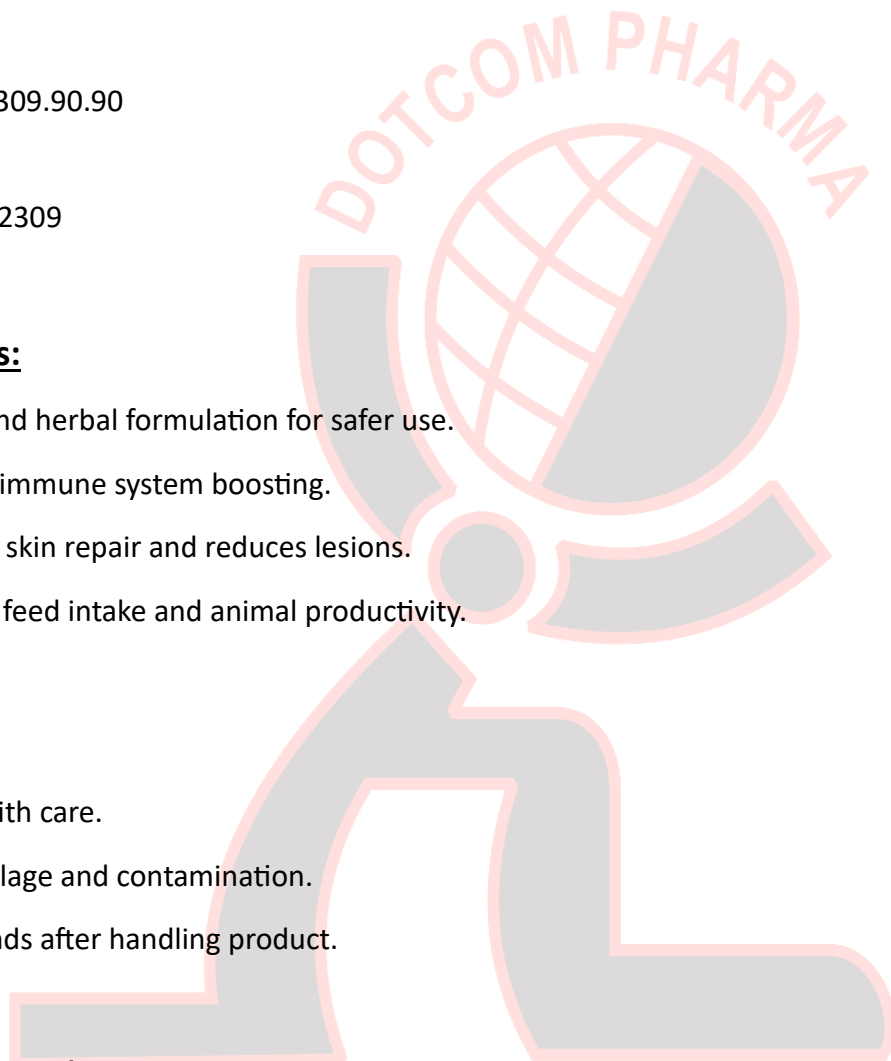

- Natural and herbal formulation for safer use.
- Supports immune system boosting.
- Enhances skin repair and reduces lesions.
- Improves feed intake and animal productivity.

Handling:

- Handle with care.
- Avoid spillage and contamination.
- Wash hands after handling product.

Special Instructions:

- Consult your veterinarian before use.
- Ensure proper hygiene and nutrition along with supplementation.

? Frequently Asked Questions (FAQs)

Q1. What is Lumpy Skin Disease (LSD)?

Lumpy Skin Disease (LSD) is a viral infection affecting cattle characterized by nodules on the skin, fever, and sometimes a drop in milk production.

Q2. Can LUMPY-DOT cure Lumpy Skin Disease?

LUMPY-DOT is a supportive supplement that helps in management but does not cure the viral infection. It aids recovery and immune support.

Q3. How should LUMPY-DOT be administered?

It should be administered orally as per veterinarian's dosage instructions.

Q4. Is there any withdrawal period for milk or meat after using LUMPY-DOT?

No withdrawal period is required as this is a herbal feed supplement.

Q5. Can this supplement be used in animals other than cattle?

LUMPY-DOT is formulated specifically for cattle, consult your vet before off-label use.
