- Available in **Round or Rectangular** head shapes

Product Form

- Individual or Set (Male + Female Tag)
- Packaged in bulk or per set

Material

- Flexible, weather-resistant **PVC**
- UV-resistant and waterproof

Category

- Animal Identification Accessories

Veterinary Application

- Used for permanent identification of livestock for:
 - Health monitoring
 - Breeding records
 - Farm inventory and traceability
 - Disease control programs

Human Application

- Not Applicable

Advantages

- **Multiple Sizes:** Suitable for all farm animal sizes
- **Long-Lasting:** UV and weather-resistant material
- **Easy Tracking:** Supports laser numbering, barcodes, and colour coding
- **Hygienic & Safe:** Rounded edges prevent injury or discomfort

Disadvantages

- **Requires Applicator Tool:** Cannot be applied by hand
- **May Fall Off:** If not applied correctly or due to animal behaviour

Precautions

- Disinfect tag and applicator before use
- Apply only at the recommended part of the ear
- Avoid tagging very young or sick animals

HS / HSN Code

- **HS Code:** 4201.00
- **HSN Code:** 4201.00.90
- **Description:** Identification tags and accessories for veterinary use

Sterilization Details

- Tags should be wiped with disinfectant before application
- Applicator tool must be sterilized between uses to prevent infection

Frequently Asked Questions (FAQs)

1. **What size should I choose for my animal?**
 - **Large (58x70 mm):** For adult cattle and buffalo
 - **Medium (42x50 mm):** For goats, sheep, or calves
 - **Small (35x42 mm):** For piglets or small breed animals
2. **Are these tags reusable?**

No, most ear tags are designed for one-time use only.
3. **Can I print my farm logo or barcode on them?**

Yes, many suppliers offer laser engraving or custom printing.
4. **Do I need a special tool to apply them?**

Yes, you'll need an **ear tag applicator** tool.
5. **Will the colour fade under sun exposure?**

No, these are UV-resistant and designed for outdoor durability.
