

# Surgical Set- Indian (18 Pieces & 24 Pieces)

## **Description**

The Surgical Set - Indian is a comprehensive collection of essential surgical instruments designed to cater to a variety of surgical procedures. Available in sets of 18 and 24 pieces, these sets provide versatility and efficiency, making them ideal for both human and veterinary medical use. The instruments are crafted from high-quality stainless steel ensuring durability, precision, and ease of sterilization.

## **Specifications**

- Available in 18 pieces and 24 pieces sets
- Instruments included are a mix of forceps, scissors, needle holders, scalpels, and other essential tools
- Made from surgical-grade stainless steel
- Corrosion-resistant and autoclavable

## **Material**

- Surgical stainless steel (high-quality, rust-resistant)

## **Category**

- Surgical Instrument Sets

## **Product Form**

- Set of individual reusable instruments
- Packed in a sterilizable tray or box

## **Usage**

- Suitable for general surgical procedures in human and veterinary practices
- Designed to cover a broad range of surgical needs with essential instruments in one set
- Facilitates efficient workflow with all necessary tools at hand

## ✔ Advantages

- Comprehensive and versatile sets
- Durable and easy to maintain
- Ensures readiness for various surgical applications
- Sterilizable and reusable

## ✘ Disadvantages

- Requires proper handling and maintenance to preserve longevity
- Initial investment cost higher due to the number of instruments

## ⚠ Precautions

- Ensure proper sterilization before and after each use
- Handle instruments carefully to avoid damage and maintain sharpness
- Store in a clean, dry environment

## 📖 Handling & Sterilization Details

- Autoclavable sets with corrosion-resistant properties
- Clean all instruments thoroughly before sterilization
- Store in sterilized trays or boxes to maintain hygiene

## 🌸 Veterinary Application

- Used in veterinary surgeries for a wide range of procedures on animals
- Instruments suitable for delicate and general veterinary surgical tasks

## 👩 Human Application

- Commonly used in hospitals and clinics for human surgeries
- Provides all essential instruments for general surgical interventions

## **HS & HSN Codes**

- **HS Code:** 9018.90 – Medical/surgical/veterinary instruments and appliances
- **HSN Code:** 9018 – Instruments used in medical, surgical, dental or veterinary practices

## **FAQs**

### **Q: Are these sets reusable?**

A: Yes, all instruments in the set are made from surgical stainless steel and designed for repeated sterilization and use.

### **Q: What's the difference between the 18 and 24 pieces sets?**

A: The 24 pieces set contains additional instruments to cover more surgical needs compared to the 18 pieces set.

### **Q: Can these sets be used for both human and veterinary surgeries?**

A: Yes, these sets are designed for versatile use in both human and veterinary medical fields.

### **Q: How should the instruments be maintained?**

A: Clean thoroughly after use, sterilize properly, and store in dry, sterile conditions to ensure longevity.
