

KHAND MALAM

Ayurvedic Veterinary Ointment

Description

A **herbal veterinary ointment** formulated with Ayurvedic principles, designed for **topical use in animals**. This preparation is aimed at promoting **wound healing, reducing inflammation, and soothing skin conditions** through the use of traditionally used plant-based ingredients.

The formulation is **chemical-free, steroid-free, and safe for repeated use** in various animal species. Suitable for both large livestock and companion animals.

Composition

Each 100 gm contains:

- **Ayurvedic Herbal Extracts / Oils** — Proprietary blend (as per manufacturer's formula)
- **Herbal/Vegetable Ointment Base** — q.s. to 100 gm

Category

- **Veterinary Ayurvedic Medicament** (Topical)
- **External Use Only**
- **Anti-inflammatory, Antiseptic, Skin Protectant**

Indications

Indicated for supportive care in:

- Minor wounds, cuts, abrasions
- Skin irritation or mild infections
- Cracked skin, hooves or foot pads
- Dry patches, itching or dermatitis
- Post-procedural wound care (dehorning, branding)
- Natural healing and skin barrier protection

Suitable for use in cattle, buffaloes, goats, sheep, horses, camels, dogs, and other domestic animals.

Route of Administration

- **Topical application only**
- Not to be ingested or used internally

Dosage & Application

- Wash or clean the affected area
- Apply a sufficient amount of the ointment directly to the site
- Use **1–2 times daily**, or as directed by a qualified veterinary practitioner
- Continue application until signs of healing are evident

Key Benefits

- Ayurvedic formula: completely herbal, natural, and safe
- Free from steroids, antibiotics, or synthetic drugs
- Supports faster healing and reduces the risk of secondary infection
- Non-irritant base suitable for use on sensitive skin
- Safe for long-term use and repeat application
- Does not interfere with systemic veterinary treatments

Precautions

- For **veterinary external use only**
- Avoid contact with animal's eyes and mucous membranes
- Do not apply on large open wounds unless prescribed
- Keep out of reach of children
- Use clean hands or applicator to avoid contamination

Storage Instructions

- Store in a **cool, dry place** below 30°C
- Protect from direct sunlight and excessive heat
- Keep the container tightly closed when not in use

Adverse Effects

- No adverse effects reported under normal usage
- In sensitive animals, mild redness or irritation may occur — discontinue if noted

Schedule

- **Non-Scheduled Ayurvedic Veterinary Product**
- Regulated under **AYUSH guidelines** for veterinary products

Handling and Disposal

- Apply with gloves or washed hands
- Do not reuse empty containers
- Dispose of according to veterinary waste and local environmental regulations

HSN Code

- **HSN:** 30039011 : Ayurvedic Medicaments for Veterinary Use
- **HS Code :** 3003.90 or 3004.90 varies by jurisdiction, but commonly used for veterinary medicaments

Frequently Asked Questions (FAQs)

Q1: Is this ointment steroid-free?

A: Yes. This is a 100% Ayurvedic herbal product with no steroids or antibiotics.

Q2: Can this be used on dairy animals?

A: Yes, it is safe and free from harmful residues. No withdrawal period is typically needed, but consult your vet.

Q3: Can it be used with other treatments?

A: Yes, this topical product is generally compatible with systemic medications.

Q4: Is it safe for pets like dogs or cats?

A: Yes. Safe when used as directed. Always do a patch test for first-time use on sensitive animals.

Q5: Is the 100 gm size suitable for large animals?

A: Absolutely. The 100 gm pack is ideal for regular application in large animals like cattle, horses, or camels.
